

Would you like to help students develop the skills your business is looking for?

Support them taking the Entrepreneurial Skills Pass

What is the Entrepreneurial Skills Pass?

The Entrepreneurial Skills Pass (ESP) is an international certification for secondary school students to start a business or be successfully employed.

The ESP includes a full-year in-school **mini-company experience**; a **self-assessment** of entrepreneurial competences; an **examination of business, economic and financial knowledge** and the possibility to **access further opportunities** offered by small and large businesses, top higher institutions and international organisations across Europe.

What does the ESP show us?

Work skills - 90% of the ESP participants reported progression in at least one entrepreneurial competence, namely creativity, self-confidence and resourcefulness.

Job creation - 60% of students would consider self-employment as a career option.

Societal impact - JA alumni find jobs within 4 months after graduation, while those who have not had the same opportunity need 11 months or more to find a job.

"Thanks to the ESP, young people can prove their business skills, which is a great competitive advantage compared to others. By involving companies, the ESP helps HR departments to find the right employees more easily."

Zuzana Vaneckova, SAP

How can you support?

Open doors to further opportunities

- Allow students to take the ESP through individual donations

Open doors to further opportunities

- Training opportunities (Professional training, Career insight, Scholarships)
- Work experience (Internships, Apprenticeships, Jobs)
- Start-up support (Mentoring, Financial support, Access to incubators)
